

EXTENSION KIT FOR PANELS WITH BORDER FRAMES.

Protec designed this new component in order to minimize the delivery time of protection fences.

This patented kit increases the modular adaptability of Novatek and Ecotek panels.

It easily allows to elongate the base of each panel of 30mm to 120mm, by fixing specific screws.

Extension kit includes panel-upright fixing screws (medium) (code KFNV003).

Extension kit is provided varnished in:

- YELLOW RAL 1003 (code 7030003145)
- ANTI-SCRATCH BLACK (code 7030003146)
